

I benefit from listening to XM Satellite Radio and its traffic and weather channels. The quality of my life has been greatly enhanced by XM Radio. Satellite radio provides variety and quality that are not available elsewhere. It is my gift to myself...I have it on both of my vehicles. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I'm permitted to hear. I urge you to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I have chosen to purchase.

Thank you for listening to my concerns. And after all, isn't America founded on the free enterprise system?

Sincerely,

Jackie Panos
